Computer Science Student · BMS College of Engineering, Bengaluru

Github: github.com/Rohan-Shridhar

LinkedIn: linkedin.com/in/rohan-mirjankar

Portfolio: portfolio-rohan-react-projects.vercel.app

EDUCATION

B.E. in Computer Science — BMS College of Engineering

CGPA: 9.7 / 10.0

Class XII — State Board, Karnataka

Percentage: 98%

Class X — State Board, Karnataka

Percentage: 97.92%

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, React, Node.js, HTML, CSS, MongoDB

Soft Skills: Team Collaboration, Problem Solving

Tools and Platforms: VS Code, Antigravity, Github

PROJECTS

GridCraft — Browser-based Pixel Art Editor

Live Link: <https://rohan-shridhar.github.io/gridcraft/>

Stack: React (CDN/UMD) · Babel · HTML5

- Built a full-featured pixel art editor with draw, fill, erase, undo/redo, image import, and PNG export.
- Runs entirely in the browser with no build tooling — React loaded via CDN/UMD, JSX transpiled by Babel.

Ciphex — Custom Encryption npm Library

Repository: <https://github.com/Rohan-Shridhar/ciphex>

Stack: Node.js · JavaScript (CommonJS)

- Developed a lightweight npm library implementing a hybrid Vigenère + Affine cipher across 96 ASCII characters.
- Designed with minimal dependencies and environment-based key handling for flexible, secure integration.
